PROJECT EXPERIENCE

Saddleback College, Mission Viejo, CA

2D Graphics Modeler (Group Project)

- Worked with classmates on a 2D Graphics Rendering application that was created in the Qt Creator IDE.
- Function under the Scrum framework and agile team development to achieve periodic results.

Takeaways:

- Scrum framework and agile team development
- Experience with Qt Creator IDE
- Github version control and VS Code liveshare

Weather App

- Worked with a publicly accessible API, openweathermap.org, to create a functional full-stack application.
- An introductory application that exposes the functionalities of the React library and API interfacing.

Takeaways:

- React with Javascript experience
- OpenWeatherMap API handling
- Github version control

Contact List App

- Worked with React for frontend (JavaScript) and Flask for backend (Python)
- This application functioned as a basic contact list but interacted with the Flask API which managed data persistence.

Takeaways:

- Flask with Python experience
- React with JavaScript experience
- Github version control

TECHNICAL SKILLS

Languages:

- C++
- Python
- HTML
- CSS
- JavaScript

Skills:

- Qt Creator
- React
- Flask
- VS Code
- Nano

ACADEMICS/SPECIAL SKILLS

- Irvine Valley College Dean's List 2022 - 2024 (GPA: 3.81)
- Member of the Game Design Club 2023
- CIF swim and water polo athlete
- Member of an agile team
